

Instructions & Use Recommendations

FMS Accessories Website Estimate Builder Function

These instructions must be read carefully and thoroughly **before** using the function. FMS Solutions, LLC accepts no liability for errors or omissions in the instructions or final work product. It is the responsibility of the user to check and verify the pricing and math when using this function, particularly when cutting & pasting Export data to other media such as MS Excel.

The screenshot displays the FMS Accessories website interface. At the top, a dark navigation bar contains the word "Administration" and links for "My account", "Log out", "Wishlist (0)", "Estimate Builder", and "Shopping cart (0)". Below this, a white header bar features the "FMS Accessories" logo, a search bar labeled "Search store", and a navigation menu with links for "HOME", "SHOP", "INSTRUCTIONS", "SUPPORT SERVICES", and "CONTACT US". The main content area is divided into two sections. On the left, "My Estimate List" shows a table of existing estimates with columns for item name and creation date. On the right, the "New Estimate" section includes a form with fields for "Estimate Name" and "Description", and a "SAVE" button at the bottom.

My Estimate List	
CHP Build Parts	_Created On : 5/25/2020
Kustom Signals Parts List	_Created On : 5/26/2020
Stalker Moving Radar Parts List	_Created On : 5/26/2020
City of Lower Slavobia	_Created On : 5/26/2020

New Estimate

Add Estimate

Estimate Name:

Description:

SAVE

The estimate builder function is designed to assist BMW dealers and other customers with building an estimate for future purchases. For dealer use, it specifically allows dealers to produce a complete listing of all parts to respond to a specific agency bid:

1. Produce a complete listing of parts and pricing
2. Export that list to MS Excel for bid response
3. Save that listing while the bidding process is in place
4. Easily modify this list based on final bid results / desires
5. One-click order the complete listing of parts
6. Save that estimate for the next agency order, where you can review the list, modify if needed, then one-click order it again!

Note the intent is to create the listing of all parts needed to complete **one motorcycle**, just like the BMW Excel pricing spreadsheet.

To use the Estimate Builder function, you must first be registered on the FMS Accessories website.

Click Estimate Builder on the upper row below Administration and the screen at right appears.

Enter Estimate Name which is normally for the agency being bid.

Enter Description: Details based on when the estimate was made / amended. In future these fields will be modifiable, but right now, they are not (once created).

Estimate Items

Estimate Name : City of Lower Slavobia

Description : Estimate based on bid documents issued 04/25/2020 and revised with meeting with Motor Sgt.

Once the estimate is created, it will appear on the My Estimate List. This list will also appear as a drop-down list on each item you shop for.

Note that each Estimate shows the date it was created.

My Estimate List

- CHP Build Parts
_Created On : 5/25/2020
- Kustom Signals Parts List
_Created On : 5/26/2020
- Stalker Moving Radar Parts List
_Created On : 5/26/2020
- City of Lower Slavobia
_Created On : 5/26/2020

You must open each product item to reveal this option, which you should do anyway.

Never “Add To Cart” until you open a product page as most of the products have choices for mounts / etc. If you “Add To Cart” without going to the product page, you may end up ordering something different than you intended.

Side Stand Extension

ADD TO CART

LED Map Light

\$114.00

ADD TO CART

BT Audio Amplifier

\$75.00

ADD TO CART

To place an item in the estimate, click on the **Add To Estimate box** at the bottom, which will reveal your My Estimate List. Select the estimate you wish to add to and click.

Do Not Click Add To Cart unless you **also** wish to create a shopping cart at the same time.

Remember to select the attribute – in the example at right – Electrical Connection.

Once the attribute is selected, then Add To Estimate.

You can quickly navigate the FMS Accessories website adding products to the estimate.

This is also a very effective tool to use with the key agency person when discussing their wants and needs, whether in person or on the phone. You can build the estimate while you show them the various products and when done have a finished estimate to send to them!

Note that you can only add quantity one (1) to the estimate when building an estimate. Once you open the estimate itself, you can modify the quantity based on the quantity required for one motorcycle sale. Change the quantity on the specific item and click “Update Estimate items”.

Home / Shop / Must Have Accessories / Side Stand Extension

Side Stand Extension

FMS Accessories offers the side stand extension for the 2015+ R 1200 / 1250 RT-P. This extension not only reduces the likelihood of the stand sinking into soft pavement or grass, but provides the added bonus of easier side stand deployment! The side stand extension enables the rider to access the stand from behind the rider footrest. "sweeping" the stand to deployment without taking your eyes off the violator. No more poking your heel between the rider's footrest and the gear shift pedal ... you can saw that peg off! Since the side stand extension is bolted to the top of the stock side stand, it also does not affect the lean angle nor drag on the ground when cornering! One of the many "must have" items! Formerly BMW PN 71 60 2 412 389

Home / Shop / Must Have Accessories / Fairing USB Outlet w/ Voltmeter & On-Off Switch

Fairing USB Outlet w/ Voltmeter & On-Off Switch

USB sockets are becoming more commonly installed on motor fairings to assist officers with charging cell phones, helmet headsets, etc. However, many of the available sockets when connected to the fairing power socket confuse the BMW 2.5Ah battery charger by creating a small parasitic load. FMS has sourced a quick-charge 3.0 technology USB socket with an On-Off switch, enabling the officer to turn-off the socket when not in use, therefore not creating issues during battery charging (particularly off-season storage when connected to the fairing power socket outlet). Additionally, the USB has a digital voltmeter, enabling the rider to see the state-of-charge of the battery that the voltmeter is connected to (based on the connection type selected). The voltmeter is also visible through the waterproof cover. When connected to the auxiliary battery power source, the voltmeter provides an excellent indication of your auxiliary battery state-of-charge as well as when the motorcycle is charging the aux. battery. 				Add to cart	Update Estimate Items	Delete Estimate List
				Export to Excel		

Note that the message: This Estimate Is Already Added To Cart is an error and will be fixed. It should only appear if you decide to click the "Add to cart" button.

				Total Amount :1230.00 This Estimate Is Already Added To Cart !!!		
				Add to cart	Update Estimate Items	Delete Estimate List
				Export to Excel		

When you first open the download file in Excel, you will see a compressed group of data. You will need to change the column width to see the full amount of information displayed. However, you can also highlight and paste this into the BMW pricing spreadsheet and it will accept the page format based on where you paste it.

Note: You will need to save and close the estimate in Excel to open another as the downloads have the same name. Otherwise, an error message will say the new download file is corrupted.

	A	B	C	D	E	F
1	Quantity	Description	PN	Price Each	Total Price	(In \$)
2	1	Fairing USE	FMSA-EA-U	45	45	
3	1	Side Stand	FMSA-MT-S	36	36	
4	1	Notepad H	FMSA-MT-I	48	48	
5	2	Radio Conr	FMSA-EL-R	10	20	
6	1	Accessory I	FMSA-EL-A	9.5	9.5	
7	1	Speaker Co	SKU: FMSA	9.5	9.5	
8	1	Flashlight &	FMSA-MT-	200	200	
9	1	Assault Rifl	FMSA-GL-A	767	767	
10	1	Assault Rifl	FMSA-MT-I	59	59	
11	1	Radio Powe	FMSA-EL-R	36	36	
12						

Once you adjust the format, you will have a very normal looking estimate. Add an auto-sum to the most RH column and your total cart value will appear, just like on the estimate on the website.

You can paste this into emails as a photo, add to the BMW Excel pricing sheet, etc. while saving a huge amount of typing.

	A	B	C	D	E	F
1	Quantity	Description	PN	Price Each	Total Price	(In \$)
2	1	Fairing USB Outlet w/ Voltmeter & On-Off Switch	FMSA-EA-USB	\$ 45.00	\$ 45.00

12						
13						\$1,230.00
14						
15						

If you decide to paste the estimate into the BMW Excel spreadsheet, a modified area is now on Page 4 to do this. You will still need to modify the columns for:

1. Center column B for quantity
2. Format type to Arial 8 pt
3. Format numbers in columns E and F to dollars.
4. The sheet will capture the rest and add to the totals as well as dealer profit calculator.
