

Installation Instructions & Use Recommendations

FMS Accessories – Compact Lidar Gun Holster

These instructions must be read carefully and thoroughly **before** beginning work. FMS Solutions, LLC accepts no liability for damage caused by failure to observe the installation instructions or use recommendations.

Installation of this accessory does not change the factory specified load limits for the motorcycle.

FMS Accessory Lidar gun holsters are made from powder-coated heavy duty aluminum to resist corrosion. The mounting brackets are produced from powder-coated steel and are connected via five bolts. This does enable the case to be replaced in the event it becomes damaged.

Mount the unit to 2015+ BMW R 1200 RT-P models by securing to the engine protection bar using the three M5 threaded inserts in the protection bar. The gun holster is provided with three M5 Torx head (T25) bolts to secure to the bar. Note that these bolts have antiseize coating to reduce the likelihood of thread gauling. Tighten all three bolts to secure holster to protection bar. Note that a bit driver is very useful in tightening the center T25 bolt where clearance is very tight.

Maintenance Requirements:

The keyed lock attached to the holster will require periodic lubrication. The frequency of that lubrication will depend in large part on the environmental conditions and frequency of washing. It is best to use a light penetrating oil such as WD40 or similar.

Keep the holster and mounting bracket clean from bugs and other road debris as you would your motorcycle. Clean with soap and water – avoid harsh chemical cleaners as they could cause corrosion of the lock mechanism. The powder coating inside the holster may wear off at contact points which is normal. No adverse effects will occur.

Feedback: Thank you for your purchase and we welcome your feedback as we too want to make every accessory exceed your expectations. Report any comments, suggestions, problems or concerns to FMS Solutions, LLC at info@fmsaccessories.com.

Warranty: FMS Accessories specializes in the production of police motorcycle accessories to make your BMW police motor more efficient and comfortable. FMS accessories are not authorized or approved by BMW Motorrad USA and are not covered by any of the BMW motorcycle limited warranties for motorcycles, parts or accessories.

FMS Solutions, LLC warrants its products for defects in material and workmanship for one year from the date of purchase. This warranty extends only to the FMS accessory and does not cover damage caused by incorrect installation; labor to diagnose, remove, repair or replace; or any consequential damage. FMS Accessories suspected of being defective should be returned to FMS Solutions, LLC along with a copy of proof of purchase. FMS Solutions, LLC will determine if the FMS Accessory has a warrantable defect, and if so, will repair or replace the item and return it to the sender without charge. The decision to repair or replace said item is solely the prerogative of FMS Solutions, LLC.

Note: Police motors can operate in a very rough environment since police motors are a “tool”. They can be dropped, knocked-over, etc. without concern as the officer has a job to do and determines what is necessary at any given moment. Warranty is for defects in materials or workmanship. Therefore, the ability of an item to become broken or damaged does not mean it is warranty ... it just means it is broken or damaged and in need of repair or replacement. No manufacturer warrants their products to be indestructible. Any questions should be directed to info@fmsaccessories.com.
